## Dee Barnes Designs

I make mixed media jewellery that is created  
from an original painting. The paintings are  
abstract in design and have a multitude of  
applications in various media including acrylics,  
chalks, pastels, inks, gold and silver leaf. I  
manipulate the surface pattern creating layers  
and depth. The paintings are cut into shapes  
which are mounted and a layer of resin is applied.  
When dry the pieces are assembled into earrings,  
pendants and brooches.
